ABOUT

I'm a digital advertising consultant with 9 years in search, the last 4 focused exclusively on enterprise SA360 implementations for retail brands. I have deep fluency in how SA360's campaign structure, bidding algorithms, and integration with Google's broader Marketing Platform create advantage at scale. I've personally managed or overseen more than \$200M in lifetime paid search spend. I'm a sales-oriented thinker who genuinely enjoys client work.
