## Experience

### Digital Marketing Manager

Freelance / Various Clients | Chicago, IL | 2018–Present

I have been freelancing in digital marketing for the past 6 years. I do a little bit of everything: social media management, email campaigns, basic Google Ads for small business clients, SEO audits, and website management on Squarespace and WordPress. My clients are mostly local restaurants, salons, and small retailers with budgets under \$5,000/month. I have heard of Search Ads 360 but have never used it — it is more of an enterprise tool and my work has been small-scale.

### Digital Marketing Intern

Chicago Tribune Media Group | Chicago, IL | Summer 2017

Assisted with display advertising sales support. Research and proposal prep.

## Education

B.A. English, Minor in Business | Loyola University Chicago | 2018

## Skills

Google Ads (SMB-level), Meta Ads, Mailchimp, WordPress, Squarespace, Canva, basic SEO

Honest self-assessment: Not a strong fit for enterprise SA360 roles without significant upskilling.
